DEALER FACT SHEET

AntOn by Jungheinrich CBH 2.5 | 3.0

Lithium-ion Counterbalance Truck

Load capacity 2,500 to 3,000 kg

AntOn by Jungheinrich CBH 2.5 | 3.0

Electric forklifts that simply work.

The AntOn by Jungheinrich CBH electric forklift brings together what truly matters in demanding work environments: robust engineering, easy handling and reliable performance. Whether in the warehouse, outdoors or at the loading dock – the CBH 2.5 and 3.0 are versatile performers that deliver wherever they're needed.

Your Sales Arguments:

- ▶ **Powerful performance profile**
 - Rated load capacity: 2.5 t and 3.0 t
 - Top speed: up to 17 km/h
 - Lift speed: up to 0.56 m/s
 - Gradeability: up to 25 %
- ▶ **Modern lithium-ion technology**
Maintenance-free, durable, fast charging
- ▶ **Cost-effective acquisition**
Fast availability and excellent value for money
- ▶ **All-rounder for indoor and outdoor use**
Weather-resistant design, high ground clearance, large tyres, cabin options
- ▶ **Standard safety features**
OPS system (seat belt monitoring)
- ▶ **Multiple configuration options**
Three pre-configured versions for different customer needs

Your Advantages as a Dealer:

- ▶ High sales potential in Class 1.0
- ▶ Cutting-edge technology at an attractive entry price
- ▶ Weight classes and configurations tailored to customer requirements
- ▶ Fast delivery from stock
